Simply a must see, a wonderful light and bright five bedroom home tucked into a hillside with views of all four ski areas and Mt. Daly. Warm hardwood floors throughout combined with contemporary steel and marble finishes set the tone for this quintessential mountain retreat.

The home was completely remodeled down to the studs (and added on to) in 2014 and is offered with tasteful furnishings so you can immediately enjoy all that this slice of Aspen has to offer. Private location above Willoughby Way makes for a quick and easy hop into downtown Aspen.
