

1683 Red Mountain Rd, Aspen, CO 81611, Aspen, 81611, CO, United States

The views are endless from Independence Pass to Mt. Sopris, and so is the potential for this rare and magnificent location and home set high atop Red Mountain Ranch. With floor to ceiling windows, this 7,000 square foot home captures the most breathtaking views in Aspen and beyond.

What is great now can be even more spectacular with the vision to transform the existing home into a truly one of a kind Aspen living experience. A flat and completely usable one-acre site allows for extraordinary indoor/outdoor living and entertaining and total privacy. The charming current home consists of 6 bedrooms (plus a sitting room with a Murphy bed – making it a 7th bedroom), 6 full baths (four with heated floors), multiple living, den and office spaces, a wood-burning fireplace in the family room adjacent to the kitchen, an extra-large three car garage, forced air heat and full air conditioning. There is expansion potential to approximately 10,000 square feet with space for a swimming pool, and remodel plans are already completed by Aspen architect John Galambos. A rare opportunity with no comparable options!
